

MEMORANDUM

To: Steve Riley, Town Manager
From: John Troyer, Finance Director
Date: December 6, 2016
RE: **FY 2017 Financial Statements – Through August (2nd period)**

General Overview

Note: The financial impact of Hurricane Matthew will start to show in October (4th period).

The attached financial statements present the activity through the second month of the fiscal year. As anticipated, there is very little activity on the revenue side as the majority of revenue collected in July and August is attributable to fiscal year 2016. The expenditures are in line with expectations through two months of the fiscal year, with a significant portion being personnel costs which are incurred evenly throughout the year.

Real estate-related revenues, namely permits and real estate transfer fees are 26% lower than last fiscal year but 18% higher than the FY2015 YTD results. Last year at this time there was a flurry of new projects that generated a spike in permit revenue.

	<u>RETF</u>			<u>Permits</u>			<u>Total</u>		
	Received	\$ Change	% Change	Received	\$ Change	% Change	Received	\$ Change	% Change
FY 2016	513,597			420,870			934,467		
FY 2017	456,726	(56,871)	-11%	236,284	(184,586)	-44%	693,010	(241,457)	-26%

Tourism-driven revenues are 26% higher than last fiscal year. The Town requires that Local ATAX/Beach Preservation Fees be paid on a quarterly basis. However, the Town accepts payments from businesses that want to pay on a monthly basis. The first quarterly payments are due in October. However, this year a number of tax payers elected to pay their July taxes in August rather than wait for October. Hence, the increase when comparing this year's tax revenue with last year.

General Fund Summary

Through August, the Town's General Fund revenues and transfers in total \$1.0 million or 3% of budgeted revenues and transfers in. This level is anticipated as the Town receives most of its property taxes (the largest revenue source) from December through February. The next largest General Fund revenue source is Business License revenues which the Town primarily receives in May and June. Through August, total revenues and transfers in received to-date are \$69,121 less than the same period last fiscal year.

With 17% of the year lapsed at the end of August, expenditures-to-date are \$4.4 million or 11% of budgeted expenditures. Current fiscal year expenditures are \$40,835 more than last fiscal year. Most variances in the General Fund are as anticipated. A few have been explained in the budget to actual statement or on the revenue analysis charts.

The net change in the General Fund is presented at \$(3,396,945), which is anticipated because as noted above, the Town receives the majority of its revenues in January for property taxes and May/June for business licenses. General Fund actual versus prior year revenue and expenditures are presented in a Dashboard display on the Town's external website.

Debt Service Fund

Debt service payments are due at various times during the fiscal year. Thus far this year a scheduled payment was made for a beach bond as well as semiannual interest due on several General Obligation bonds.

C - Timing difference, FY2016 amount includes 2 payments while FY2017 includes only 1 payment.

Stormwater Utility Fund

The attached statements related to the Business Type Activity – Stormwater are presented on the modified accrual basis of accounting. This basis reflects the very close result between revenues and expenditures. These balances will change as Town staff modifies the accounts to full accrual basis, the required presentation basis in the Town's *Comprehensive Annual Financial Report*.

As with the governmental funds, this fund has minimal revenue and expense activity in the first two months, with personnel costs being a significant portion.

Dashboards

The General Fund dashboards found on the Town's website present a full year for fiscal years 2014, 2015, 2016 and year-to-date for fiscal year 2017.

The negative revenue in December of 2012 is attributable to suspended invoice billing associated with the implementation of new EMS Billing software. For several months beginning in February of 2013, revenues will be higher as staff catches up billing in the new software.

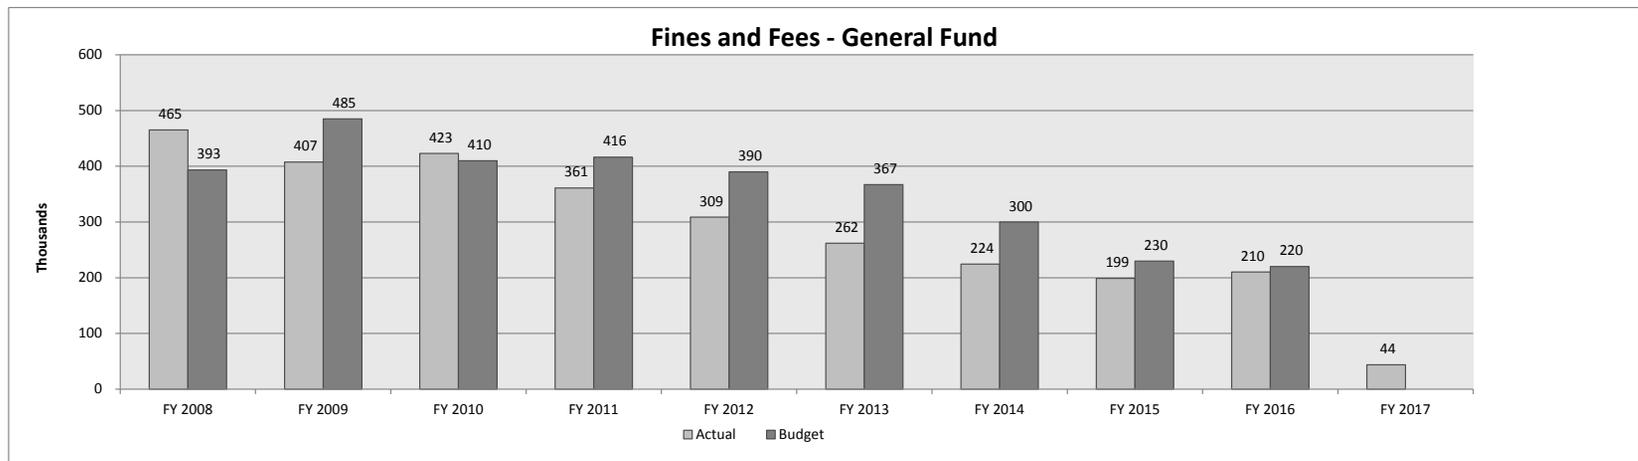

The negative revenues in June of 2013 and 2014 are attributable to an increase in the estimated uncollectible EMS revenue. The increase is associated with the implementation of the new billing software and the phase-out of the old software, i.e. the "clean up" of the old records is responsible for the majority of this increase.

The decreases in June in the latter years represent the annual entry for allowances for doubtful accounts receivable. Staff has cleaned up and sent all outstanding balances in the old system to the SCDOR Debt Setoff program. Therefore in fiscal year 2014, we increased the allowance to cover most of these balances as well as created an allowance account in the new billing system.

The decreases in the first quarter of FY15 over FY14 represent a more normalized collection cycle. In FY14, the Town was catching up collections due to the implementation of new billing software.

In March of 2012, a cumulative receivable from Beaufort County for \$ 325,789 was written off. This related to a settlement reached with the County regarding the method used to calculate these revenues.

In June & July of 2015, Beaufort County reclaimed several overpaid tax increment financing taxes causing a net decrease in revenues for the month.

The original TIF went through tax year 2014/fiscal year 2015 and included the school district participating at 75% for both operating and debt millage. The TIF has been extended for 10 years; however, the school district changed its participation to exclude operating millage. Therefore, TIF revenues will be less in fiscal years 2016 and forward. TIF revenues by design are expected to grow via redevelopment; \$50 million is the capped addition for the 10 years. Revenues for the early years of the 10 year extension are expected to be in the \$4 millions, but will need to exceed \$5 million in the latter years to average \$5 million/year or \$50 million in total.
