*Chapter 16-2: Administration*

*Section 16-2-103.F.5: Subdivision Review – Effect of Approval*

---

**Proposed Amendment**

- This change will clarify the language to make it clear that a final plat will not be stamped for recording of the subdivision with Beaufort County until a final Certificate of Compliance (C of C) has been issued.

**Reason for Change**

- The current language has caused some confusion with the public.
- The language indicates that the approval of the subdivision constitutes approval of the plat.
- While the approval of the subdivision and issuance of the Notice of Action (written approval) does constitute approval of the plat, the plat will not be stamped for recording until the C of C is issued.
- A C of C is not issued until staff inspects the site and determines that all requirements such as infrastructure, fire lanes and landscaping have been met.
- Once the C of C is issued, staff stamps the plat, the applicant gets the plat recorded with Beaufort County and the lots are then subdivided and can be sold.

**Pros and Cons of Amendment**

<i>Pros:</i>	The process will be easier to understand.
<i>Cons:</i>	None

**Additional Information**

- Without this process in place of requiring the C of C prior to stamping of the final plat, staff would not be able to ensure that all requirements of the subdivision plan were met.

**Recommendations**

October 30, 2019: The LMO Committee voted 4-0 to forward this amendment to the Planning Commission with a recommendation of approval with a minor change to the language.

*Table 16-4-102.A.6: Principal Use Table*

---

**Proposed Amendment**

- This change will allow an Indoor Commercial Recreation use as an allowed use in the CC zoning district.

**Reason for Change**

- Indoor Commercial Recreation uses fit in with the purpose statement of the CC zoning district but are currently not allowed in this district.

**Pros and Cons of Amendment**

<i>Pros:</i>	This will allow for an appropriate use to be located in an appropriate zoning district. It will allow opportunities for existing empty commercial spaces to be filled with an appropriate use. Staff has had several requests for this type of use in existing vacant spaces in the CC zoning district and has had to turn them down.
<i>Cons:</i>	

**Additional Information**

- The purpose of the CC zoning district is to provide lands for community-scale commercial activity centers that attract people from the island and the mainland. The district is more auto-oriented than some business districts, and provides land for moderate-sized retail stores. The district also provides opportunities for limited vehicle sales and service uses.
- Indoor Commercial Recreation uses are establishments that offer entertainment activities, events or attractions to the general public on a commercial or fee basis.
- Examples of this use include: movie theaters, stage theaters, auditoriums, amusement and electronic game arcades (video games, pinball, etc.), pool or billiard tables, theme or amusement parks, boardwalks, midway type attractions such as rides, bumper cars, go-cart tracks, game booths, bowling alleys, pool halls, dance studios and dance halls, indoor firing ranges, health clubs and spas, indoor tennis and swimming pools, and indoor archery ranges.
- All of the above uses must be located indoors to be allowed.
- Staff has received several requests to open indoor recreation businesses in this district and has had to turn them down even though there is no legitimate reason to not allow this use in this district.
- This use was permitted in this district prior to the LMO Rewrite.

*Delineation of District*

---

**Proposed Amendment**

- This will allow projects that fall within the COR but are not visible from the OCRM Baseline or the OCRM Critical Line to be reviewed through the Minor Corridor Review Procedure.

**Reason for Change**

- Currently projects that fall within the COR but are not visible from an arterial right-of-way are reviewed through the Minor Corridor Review Procedure rather than the Major Corridor Review Procedure. This change will allow a shorter review time and it will eliminate unnecessary projects from going to the DRB.

**Pros and Cons of Amendment**

<i>Pros:</i>	The process will be easier to understand and clearer for the applicants. It will also allow for shorter review times in keeping with Department goals.

*Table 16-5-102.E – Allowable Setback Encroachments*

---

**Proposed Amendment**

- This change will add HVAC units to the table of allowable setback encroachments.

**Reason for Change**

- Several developers of homes on smaller lots have approached the Town about why other encroachments such as uncovered porches, stoops, decks, patios and terraces are allowed but HVAC units are not. Since those other uses can have items on them, staff believes that allowing a platform with an HVAC on it is consistent with other setback encroachments.

**Pros and Cons of Amendment**

<i>Pros:</i>	This will create some relief for developers and will allow a greater use of the lot.
<i>Cons:</i>	The noise from the HVAC unit may cause problems with adjacent neighbors.

**Additional Information**

- Similar to other encroachments, HVAC units would be permitted to extend up to 5 feet into any setback.

*Chapter 16-5: Development and Design Standards*  
*Section 16-5-109.B.1: Stormwater Management and Erosion and Sedimentation Control Standards – Applicability*

---

**Proposed Amendment**

- This change will clarify that stormwater requirements are applicable to any land disturbing activity that both disturbs ½ acre of land or greater and is within ½ mile of coastal receiving waters.

**Reason for Change**

- This change is necessary to mirror the South Carolina Department of Health and Environmental Control (SCDHEC) regulations which will make it easier for applicants to understand all of the stormwater regulations. Currently the LMO requires any land disturbing activity that disturbs ½ acre or greater or is within ½ mile of coastal receiving waters to comply with the Town’s stormwater standards.

**Pros and Cons of Amendment**

<i>Pros:</i>	The process will be easier for the public to understand. It will eliminate the conflict with SCDHEC requirements.
<i>Cons:</i>

- This change will add the SCDHEC National Pollutant Discharge Elimination System (NPDES) Construction General Permit (CGP) and the SCDHEC Ocean & Coastal Resource Management (OCRM) Coastal Zone Consistency Certification (CZC) Heightened Stormwater Management Requirement to the list of acceptable reference guides.

**Reason for Change**

- The LMO should include these references to facilitate the efforts of non-local engineers and design professionals.

*Section 16-5-109.D.1.a: Stormwater Management and Erosion and Sedimentation Control Standards – General Standards for Stormwater Management – Design Methodology*

**Proposed Amendment**

- This change will state that the rational method (one of two accepted hydrological methodologies for computing surface runoff) may be used only for sizing individual culverts or storm drains that are not part of a pipe network or system and have a contributing drainage area of 10 acres or less.

**Reason for Change**

- These changes are necessary to reflect the standards found in SCDHEC’s guidance for stormwater plan review.

**Proposed Amendment**

- This change will require that outdoor commercial recreation uses be approved by special exception.

**Reason for Change**

- Staff recently determined that a go-cart track was not a permitted Outdoor Commercial Recreation use because it is listed as an example of Indoor Commercial Recreation uses. This determination was appealed to the BZA and they reversed staff's decision because they believed the list of examples was not intended to be exhaustive. There is concern that some Outdoor Commercial Recreation uses may not be appropriate on every parcel where they are permitted. A special exception review allows the BZA to review the potential use against specific criteria and approve or deny the proposed location.

**Proposed Amendment**

- These amendments will establish grinding as a standalone use and will provide for where it is allowed, establish conditions, required parking spaces and a definition.

**Reason for Change**

- As a result of various noise complaints related to grinding, amendments to the Municipal Code were recently adopted. In conjunction with those changes, staff is proposing to add grinding as a standalone use to make it clear what is considered grinding and where it is allowed.
