TOWN OF HILTON HEAD ISLAND

Town Council

TO: Hilton Head Island Town Council
FROM: Mac Deford, General Counsel
VIA: Joshua Gruber, Deputy Town Manager
CC: Marc Orlando, Town Manager
DATE: October 4, 2022
SUBJECT: Town of Hilton Head Island Animal Control Ordinance Update

RECOMMENDATION:

Town staff presents and recommends that Town Council approves the repeal and replacement of Chapter 1 of Title 17 of the Town Code entitled Animal Control. This recommendation is in response to recent changes to Beaufort County's animal control ordinance.

At its September 20, 2022, meeting, the Town Council unanimously passed first reading of Ordinance No 2022-17 to repeal and replace the Town's Animal Control Ordinance.

Additionally, as discussed at the September 20, 2022 meeting, the Town will work with Beaufort County to prepare an emergency preparedness plan that addresses concerns regarding the relocation of livestock during a natural disaster and a corresponding communications plan regarding these resources.

BACKGROUND:

The Beaufort County Sheriff's Office provides law enforcement and animal control services within the Town through an intergovernmental agreement. In January 2016, the Town Council adopted Beaufort County's animal control ordinance to establish uniformed animal control laws across Beaufort County. Subsequently, Beaufort County made substantial amendments to its animal control ordinance, and the Town's ordinance no longer materially reflects the County ordinance.

As a matter of public concern, the question of whether dogs would be allowed off-leash under the County's amended ordinance was presented to Town staff. After reviewing the County's ordinance and engaging in discussions with the County's legal counsel, Town staff concluded that adoption of the County's amended animal control ordinance would prohibit dogs from running at-large on Hilton Head Island beaches. In response, Town staff drafted the proposed changes to the Town's animal control ordinance that is materially aligned with the County ordinance, with the exception that dogs will continue to be permitted to run at-large in accordance with existing Town Code.

SUMMARY:

Proposed Ordinance No. 2022-17, if adopted on second reading, will maintain an animal control ordinance that is materially uniform with Beaufort County's animal control laws while allowing dog owners to allow their pets off-leash pursuant to the existing Town Code. Staff recommends that Town Council approve and adopt proposed Ordinance No. 2022-17.

- (e) *Habitual Violators.* In addition to any legal remedy available under the provisions of this Chapter, it shall be the duty of the BCAS to summon the owner of any animal(s) which is found guilty by the Beaufort County Magistrate Court of any three (3) violations contained in this Chapter in any twelve (12) month period to abate any or all animals from owner's premise. If, after fully hearing the matter and any statement the owner may make any testimony he/she may offer in his/her behalf concerning the matter, should the Beaufort County Magistrate Court find such owner is unable or unwilling to adhere to the provisions of this Chapter, the Beaufort County Magistrate Court shall issue a written order to the owner, directing and requiring him/her with a certain specified time to relocate the animal(s) to a home with a person unrelated to the owner or surrender the animal(s) to BCAS.

- ~~(e)~~ (d) Infractions resulting in administrative citations and penalties. In addition to the remedies and penalties contained in this chapter, and in accordance with S.C. Code § 47-3-20, an administrative citation may be issued for certain infractions of county animal control ordinances. spay/neuter, and/or warnings for a noisy public nuisance animal, or any violation of Section 14-34. Animal cruelty charges and Dangerous dog determinations are not violations subject to administrative citations.

The following procedures shall govern infractions of this chapter and the imposition, enforcement, collection, and administrative review of administrative citations and penalties.

- (1) *Notice of infraction.* If an animal is owned, kept, maintained, or found to be in violation of a county animal control ordinance, an administrative citation may be issued by the BCAS officer.

If the owner, occupant or other person who has an infraction of a county animal control ordinance is a business, and the business owner is on the premises, the BCAS officer shall attempt to deliver the administrative citation to him/her. If the BCAS officer is unable to serve the business owner on the premises, the administrative citation may be left with the manager or employee of the business. If left with the manager or employee of the business, a copy of the administrative citation shall also be mailed to the business owner by certified mail, return receipt requested.
 - c. If no one can be located at the property where the infraction occurred, then the administrative citation shall be posted in a conspicuous place on or near the property and a copy mailed by certified mail, return receipt requested to the owner, occupant or other person who has violated the ordinance. The administrative citation shall be mailed to the property address and/or the address listed for the owner on the last county equalized assessment roll. The administrative citation shall also be mailed to any additional addresses for the owner in department records.
- (4) *Administrative penalties.*
 - a. The penalties assessed for each infraction of a county animal control ordinance shall not exceed the following amounts:

- d. The penalties assessed shall be payable to the Beaufort County ~~Treasurer~~ Animal Control Services.
- e. Where the infraction would otherwise be a violation, the administrative penalty shall not exceed the maximum fine or infraction amount.
- f. Failure to pay an administrative penalty may result in prosecution or petition for the original violation(s) in the Beaufort County Magistrate Court.

(5) *Administrative appeal of administrative citation.*

- a. Notice of appeal. The recipient of an administrative citation may appeal the citation by filing a written notice of appeal with the BCAS. The written notice of appeal must be filed within 20 days of the service of the administrative citation set forth in subsection (3) above. Failure to file a written notice of appeal within this time period shall constitute a waiver of the right to appeal the administrative citation. The notice of appeal shall be submitted on county forms and shall contain the following information:
 - i. A brief statement setting forth the appellant's interest in the proceedings;
 - ii. A brief statement of the material facts which the appellant claims supports his contention that no administrative penalty should be imposed or that an administrative penalty of a different amount is warranted;

 - iv. The notice of appeal must be signed by the appellant;
 - v. A check or money order is required, as a deposit, for the total penalty amount shown on the front side of the citation, before the administrative appeal will be scheduled; and
 - vi. Indigence must be proved to have the deposit waived.
- b. Administrative hearing of appeal. Upon a timely written request by the recipient of an administrative citation, an administrative hearing shall be held as follows:
 - i. Notice of hearing. Notice of the administrative hearing regarding the administrative citation shall be given at least ten days before the hearing to the person requesting the hearing.
 - ii. The administrative hearing regarding the administrative citation shall be held before the public safety director, or a designee. The hearing officer shall not be the investigating BCAS officer who issued the administrative citation or his/her immediate supervisor. The BCAS director may contract with a qualified provider to conduct the administrative hearings or to process administrative citations.
 - iii. Conduct of the hearing. The investigating BCAS officer who issued the administrative citation shall be required to participate in the administrative hearing regarding the citation. The contents of the investigating BCAS officer's file may be admitted in support of the administrative citation. The hearing officer shall not be limited by the technical rules of evidence. If the person requesting the appeal of the administrative citation fails to appear at the administrative hearing, the hearing officer shall make a determination based on the information available at the time of the hearing.

- iv. Hearing officer's decision. The hearing officer's decision regarding the administrative citation following the administrative hearing may be personally delivered to the person requesting the hearing or sent by mail. The hearing officer may allow payment of the administrative penalty in installments, if the person provides evidence satisfactory to the hearing officer of an inability to pay the penalty in full at one time. SUBJECT: Consideration of an Ordinance authorizing the granting of perpetual easements to the Broad Creek Public Service District (PSD) for the access and maintenance of an Aquifer Storage and Recovery (ASR) facility across Town land (Parcel R520 012 000 0019 0000 near 12 Dalmatian Lane) – Second Reading

RECOMMENDATION:

Adopt an ordinance authorizing the granting of perpetual easements to the Broad Creek PSD to construct, access and maintain an Aquifer Storage and Recovery (ASR) facility across Town land (Parcel R520 012 000 0019 0000 near Fire Station 6 at 12 Dalmatian Lane).

BACKGROUND AND SUMMARY:

First reading of the ordinance was unanimously approved by Town Council at their September 20, 2022 meeting. The Broad Creek PSD seeks an area to construct and operate an ASR facility consisting of underground wells and an above ground pump house, with associated underground electric and water lines. The facility shall allow the PSD to recharge, store and recover water to and from an aquifer. This partnership opportunity with the Broad Creek PSD to assist in providing capital investment in infrastructure facilities to ensure future delivery of potable water to Hilton Head Island residents is identified as an environmental sustainability initiative in the Town's Strategic Plan.

There are ten distinct easements being conveyed across the single parcel that provide for the installation, access and maintenance of underground piping, electrical power and control wiring, and the well. The easements are depicted in Exhibit B of the attached Ordinance. The total amount of Town land to be encumbered by these easements is 2.04 acres.

TOWN OF HILTON HEAD ISLAND

Town Council

TO: Town Council
FROM: Shawn Colin, *Assistant Town Manager – Community Development*
CC: Marc Orlando, *Town Manager*
CC: Josh Gruber, *Deputy Town Manager*
DATE: September 27, 2022
SUBJECT: Consideration of a Resolution authorizing the Town Manager to execute a revised Memorandum of Understanding (MOU) with Beaufort County for the William Hilton Parkway Corridor Project and Adaptive Traffic Signal Improvements.

RECOMMENDATION:

That Town Council consider a Resolution authorizing the Town Manager to execute a revised Memorandum of Understanding (MOU) with Beaufort County for the William Hilton Parkway Corridor Project and Adaptive Traffic Signal Improvements

BACKGROUND:

This project began in 2017 when a need was identified by the South Carolina Department of Transportation (SCDOT) to improve the westbound bridge that connects the mainland to the island (there are two bridges in each direction). The Town and County requested a more comprehensive approach instead of piecemealing an improvement over a series of years. Since that time, the SCDOT has involved time and funding to conduct an evaluation of alternatives and prepared a draft Preferred Recommendation following the NEPA process. There has been ample public involvement, with many workshops, well over 20 public meetings, and opportunities to provide comment. In addition, the Town has worked with MKSK, a planning and design consultant since April 2021 to review the project and draft recommendations to improve the corridor alignment and design elements. Town Council approved 26 recommendations on October 12, 2022.

This is a major investment by the SCDOT and Federal Highway Administration (FHWA). It will have a significant impact on parts of Beaufort County, the Town of Bluffton and especially the Town of Hilton Head Island. The approach to Hilton Head Island is viewed as a visual oasis welcoming everyone to the beauty of the island. Changes that would negatively impact this entry are a major concern to the residents and visitors who come to Hilton Head. As such, the Town and many of its residents, want to make certain that all reasonable alternatives have been evaluated before a final decision is made. The Town of Hilton Head wants to hire an independent specialist to review the information and make sure the recommendations will be in the best interests of all the players,

including residents, employees, visitors, businesses, and the Gullah Cultural Community which is traversed by William Hilton Parkway. Senator Tom Davis has procured additional funds and the Town of Hilton Head will be reimbursed for the costs to hire a qualified firm(s) for this independent review.

There are relatively few differences between the MOA that was approved by Town Council and the revised MOA that has been approved by the County Council. The first difference is that the revised MOA from Beaufort County shifts the procurement of the Independent Consultant to a joint effort between the Town and County and includes funding through the project budget and does not provide for input from a citizen committee or member standpoint. Additionally, Beaufort County, removes the evaluation of additional alternatives for the corridor alignment after receiving input from SCDOT Secretary Christy Hall and Senator Tom Davis that inclusion of such a evaluation could jeopardize the grant funding authorized by the State Infrastructure Back.

However, the revised MOA does not require or provide municipal consent, nor does it preclude the submission of amended documents to the Federal Highway Administration to include any recommendations that may emerge from the Independent Review.

SUMMARY:

Adoption of the Resolution and execution of the MOU, staff will facilitate additional work that needs to be completed to provide better understanding of project details and impacts needed to inform recommendations for improvements to the bridge, corridor, and project mitigation.

SIGNAL IMPROVEMENTS**

THIS MEMORANDUM OF AGREEMENT is made and entered into this ___ day of September 2022 by and between Beaufort County, South Carolina (the " County"), and The Town of Hilton Head Island, South Carolina (the "Town").

WHEREAS, the US 278 Corridor Project, referred to herein as the "Project," is a Beaufort County Project and is part of the programs funded by the 2018 sales tax; and

WHEREAS, a portion of the Project is located within the corporate limits of the Town, which impacts the citizens and visitors of the Town of Hilton Head Island, will provide for safer public transportation; and

WHEREAS, the Project is currently in the preliminary design stage and is working through the Environmental Assessment process; and

WHEREAS, separate from the design consultant for the Project retained by the South Carolina Department of Transportation (the "SCDOT"), and at the request of the Town, the County hired a design engineer, HDR, to perform an Independent Review of the project. In addition to the Independent Review, the Town hired a land planning consultant, MKSK, to assist the Town Council with evaluating the current design and to provide recommendations to enhance the Project; and

WHEREAS, as part of the Environmental Assessment process a preferred alternative for the Project was identified by the SCDOT and presented at a public hearing held on July 22, 2021; and

WHEREAS, based upon comments received from the public and from the Town, the Project plans were updated, and a modified preferred alternative was presented at a public information meeting held on March 3, 2022; and

WHEREAS, there have been several comments made by residents of the Town regarding the impacts to the citizens and visitors of Hilton Head Island and have requested an additional independent review be conducted to evaluate community impacts to include areas that lie outside of the Project limits and that will provide design modification recommendations that will otherwise enhance the Project; and

WHEREAS, the County and the Town have determined that an independent review (the "Independent Review") must be performed by a consultant in material conformance with the Scope of Work (the "Scope of Work") set forth on Exhibit A attached hereto; and

WHEREAS, the US 278 Corridor, extending from I-95 to Sea Pines Circle, is of regional importance to the County and the Town to facilitate trade and commerce throughout the region; and

WHEREAS, it is recognized that it is of utmost importance to keep traffic moving as safely and efficiently as possible throughout the corridor; and

WHEREAS, there are many SCDOT-owned signals along the corridor that are managed and maintained by the County and the Town through various signal maintenance agreements with SCDOT; and

WHEREAS, the Town has funds budgeted in its Capital Improvement Plan for fiscal year 2023 to make improvements to the traffic signals within the corporate limits of the Town which they maintain under their signal maintenance agreement(s) with SCDOT; and

WHEREAS, the County and Town desire to make traffic signal improvements along the entire US 278 Corridor to increase safety and capacity through the synchronization of “Adaptive Traffic Signals.”; and

WHEREAS, any and all future signal projects, including those signals within the US 278 Corridor Improvement Project, are to be fitted with the same technologies to ensure they are synchronized with the other signals.

NOW, THEREFORE, for and in consideration of the mutual covenants exchanged herein, the County and the Town hereby agree as follows:

1. The County and the Town agree to advance the Project in a cooperative manner for the entire duration of the Project.
2. The County and the Town mutually agree to work together in good faith to address the feasibility, and merits of recommendations approved by Town Council on October 12, 2021 (as set forth in Exhibit A) (the "Recommendations") and further agree that one bridge will be designed and constructed for the Project.
3. The County will procure an independent consultant (the “Independent Consultant”), (i.e. – one that does not have a previous or current contractual relationship with SCDOT, the County, or the Town) to perform an additional independent review of the project. This Independent Consultant will conduct an end-to-end simulation and study through and beyond the Project limits to include additional intersections materially consistent with the Scope of Work set forth in Exhibit A.
4. The County and the Town will establish a committee (the “Committee”) to select the Independent Consultant through a competitive bid process. The following County representatives shall sit on the Committee: (a) the County Administrator or his designee (b) the Assistant County Administrator for Infrastructure: (c) and the County Transportation Program Manager Consultant. The following Town representatives shall sit on the Committee: (d) the Town Manager or his designee; (e) the Assistant Town Manager of Community Development; and (f) the Town Engineer.
5. All recommendations from the independent review for areas within the project boundary will be considered for inclusion in the project. The County and Town agree to pursue the “Finding of No Significant Impacts” (FONSI) from the Federal Highway Administration concurrent with the Independent Review. If any findings from the Independent Review affect environmental documents submitted for the FONSI, those recommendations will be considered, and the environmental documents will be updated and resubmitted as agreed upon by the County and the Town.
6. The County and the Town, as required as part of the NEPA process, will coordinate with SCDOT to perform a value engineering of the project to identify and eliminate unwanted costs, and improve function and quality as well as to optimize initial and long-term investment, ultimately seeking the best value for the lowest cost.
7. The County and the Town mutually agree to work together, along with SCDOT and Lowcountry Area Transportation Study, to design, implement and maintain a connected and synchronized signal system along the entire length of US 278 from I-95 to Sea Pines Circle. The synchronized system will include fiber connectivity, Adaptive Signal technologies and other tools to help maximize flow. The County and the Town mutually agree to work together to seek funds necessary to acquire and implement the proposed improvements.
8. Any signal improvements from the synchronization project which are not already installed within the corridor prior to the construction of the Project, will be incorporated as such.

9. This Agreement does not provide the Town’s municipal consent. Such consent may be provided by the Town Council after the Independent Review has been evaluated by the Town and County and before the right-of-way acquisition phase of the Project begins. Municipal consent by the Town will not be unreasonably withheld.
10. The County and the Town agree that the Independent Review will be the last and final study needed for the Town to make a final decision related to the Project.

IN WITNESS WHEREOF, Beaufort County, South Carolina, and the Town of Hilton Head Island, South Carolina, by their authorized officers, have executed the within memorandum on this ____ day of October 2022.

Responses to Town Recommendations

The preliminary responses are based on the meeting held between the Beaufort County (County Administrator Eric Greenway & Assistant County Administrator Jared Fralix), SCDOT (Secretary Christy Hall, Deputy Secretary Leland Colvin, & Program Manager Craig Winn), and the Town of Hilton Head Island (Town Manager Marc Orlando, Mayor John Mccann, and Senior Advisor to the Town Manager Shawn Colin) on October 14, 2021, at the Beaufort County Administration Building. Additional responses are based on further environmental NEPA evaluations, traffic evaluations & engineering design performed since the October 14, 2021 meeting.

Corridor Wide

1. Reduce lane widths to 11¹ to calm traffic & reduce property impacts

Preliminary Response: Agreement on 12' lanes on the bridge and Jenkins Island but a 12' outside lane and a pair of 11' inside lanes as well as accessory lanes will be pursued through the Stoney Community from the Causeway to Spanish Wells Road.

Additional Response: During the design process a design exception and appropriate approvals for the two 11' inside lanes within the Stoney Community will need to be pursued.

2. Eliminate raised curbs in medians wherever possible encourage existing vegetation and natural drainage in these areas

Preliminary Response: Agreement on elimination of raised curbs on the interior portion of Jenkins Island where appropriate with the understanding this will increase the clear zone needed in the median. Raised curb and gutter will be installed on the exterior edge of the roadway to reduce ROW requirements and handle the drainage needs.

Additional Response: Additional investigation and review of safety and drainage needs within the area will be required as project development continues. In project areas with a proposed 15' raised median, curbing will be provided on both the inside and outside of the roadway.

3. Vary median widths and meander roadway alignments where possible for traffic calming and aesthetics

Preliminary Response: Agreement on varying median through Jenkins Island, holding eastbound lanes in the existing alignment and moving westbound travel lanes North on Jenkins Island between Crosstree Drive and the causeway. The costs are to be estimated and if project overrun will need to be funded locally (not SCDOT or SIB funding).

Additional Response: The meandering of the roadway is estimated to increase project cost by approximately \$1.SM and was designed to avoid all critical area and freshwater wetlands. Additionally, the meandering of the roadway would not be permitted to result in wetland impacts greater than the Recommended Preferred Alternative 4A, as presented at the Public Hearing. Appendix 1 shows the proposed layout of the meandering on Jenkins Island that avoids critical area wetlands and freshwater wetlands. The additional cost does not include any costs for the additional Town-owned ROW required to meander the roadway and the ROW is assumed to be donated. The County does not have extra funds for an additional cost, and additional local funds would need to be identified early in the design process by the Town.

4. Take advantage of Town-owned property for sake of Parkway improvements

Preliminary Response: Agreement on this item and was part of the SIB application.

Additional Response: Project is taking advantage of Town-owned property through Jenkins Island with westbound lanes alignment. Other uses of Town-owned property will be considered during design if needed to facilitate project needs.

5. Utilize ITS smart signal technology throughout

Preliminary Response: Agreement on this item. It is already part of the current project scope.

Additional Response: Please be advised that signals will continue to be maintained locally, by either the County or Town, as currently prescribed in each of our Signal Maintenance Agreements (SMA) with SCOOT

6. *Reduce curb cuts and provide for alternative/safer property access throughout*

Preliminary Response: Agreement on this item. Change in access drives within Stoney as proposed by MKSK is separate from the project.

Additional Response: Reduction in curb cuts is a priority for safety and access management. Before reducing curb cuts, it will need to be verified that the improvements do not cause additional impacts within the TCP and are agreeable by all property owners.

7. *Provide trails on both sides of Parkway where possible with sufficient separation from the road and instead of sidewalks*

Preliminary Response: No trail to be installed on the southern side of William Hilton Parkway. The existing sidewalk on the southern side is to be removed except to connect Windmill Harbor to the shared use path underpass west of the Windmill Harbor entrance.

Additional Response: No additional comments.

8. *Create a comprehensive system of safe, comfortable, and attractive shared use paths for cyclists and pedestrians*

Preliminary Response: Agreement on a trail on the northern side of US 278 only, with separation from the roadway. The trail will not be located in the marsh area and must tighten up alignment through the causeway section connecting Hilton Head and Jenkins Island. The trail is okay to move north for more separation from Parkway through Jenkins Island.

Additional Response: The meandering of the trail through Jenkins Island must avoid the wetlands and environmental features. The corridor will also be evaluated for other opportunities to utilize town-owned land to meander the shared use path away from the roadway and to protect tree canopies when practical. Additional expenses to meander the trail will need to be covered by local funds (Not SCOOT or SIB funding)

9. *Open/encourage views to the water wherever possible, as part of the Island's "signature"*

Preliminary Response: Agreement that this is a local element with selective treatment rather than any clearing and grubbing along the water edge.

Additional Response: This will not be included as part of the project as it has the potential to increase environmental impacts outside of the proposed construction limits.

10. *Ensure integration of unique, Hilton Head-specific signage, landscape schemes, public art program, architectural vocabulary, iconic features, and accent lighting that distinguish this parkway from all others*

Preliminary Response: Agreement that this element should be Town driven through its CIP Program.

Additional Response: The EA document includes signage within the Stoney Community as part of the environmental commitments. This is to include two signs, banner signage on SUP lighting, and landscaping. The final details of each of these features will be coordinated with the Stoney Community and local governments. (Eligible for project funding within the Stoney Community)

11. *Reduce design & posted speeds throughout the corridor.*

Preliminary Response: The entire project will include a 45mph design speed and consideration given for 40mph posted speed for the William Hilton Parkway from the causeway connecting Hilton Head to Jenkins Island to Sea Pines Circle (which includes the Stoney segment)

Additional Response: The posted speed will need to be discussed with the SCOOT District Traffic Engineer and a formal request will need to be submitted by the Town requesting a Speed Study through the District office for the areas of concern between Stoney and Sea Pines Circle. The project team will assist in any communication and coordination with the SCOOT District office.

12. Evaluate the island-wide transportation system.

Preliminary Response: Agreement this is an effort that will be handled locally

Additional Response: No additional comments.

Zone specific recommendations

13. Encourage/support Moss Creek area improvements (commercial redevelopment, access/roadway improvements, trail connections)

Preliminary Response: Agreement for long-term but not included in this project scope and is not eligible for State Infrastructure Bank Funding.

Additional Response: County to support private commercial redevelopment in Moss Creek area. Any driveways and curb-cuts within project limits will be improved as part of the project. The trail along US 278 will connect to the trails along Bluffton Parkway via pedestrian improvements along Buckingham Plantation Drive.

14. Establish "Gateway Experience" threshold at the west end of Mackay Creek bridges (landscape, island "icon", art, lighting)

Preliminary Response: Okay through coordination of County & Town

Additional Response: Not eligible for SCOOT or SIB Funding

15. Reduce bridge mass with two separate bridges and a Shared-Use path on side of the eastbound bridge

Preliminary Response: SCDOT is neutral on this item. The county administrator does not think benefits will justify additional costs. SCDOT states it's likely a 10-15% increase in the cost of the bridge component resulting in a \$30M to \$40M dollar increase. These additional costs are to be funded with local funds, not SCDOT or SIB. This item is to be evaluated by KCI (County) and HDR (Town) to determine the differential in costs between 1, six-lane bridge versus 2, 3 lane bridges. Additional impacts to the environment and Pinckney Island to be considered.

Additional Response: The construction of two separate bridge structures will increase the actual bridge width and increase the impacts to Pinckney Island due to the need for a separation distance between the two structures. The dual bridge option increases the estimated project cost by \$27.3 million. Additionally, two separate bridge structures will significantly increase the construction time potentially extending the completion date and jeopardizing SIB funding. The County does not support this request.

16. Reduce bridge lane width to 11', verify the need for two breakdown lanes per bridge

Preliminary Response: The bridge will have 12' lanes and no reduction of shoulder/breakdown widths. Each direction to include 2-10' shoulders as agreed to by all parties.

Additional Response: The 12' lanes and 10' shoulders are FHWA controlling criteria and provide a safety benefit to the project. These criteria are based on the roadway classification. Additionally, the shoulders provide improved access for Emergency Response on the bridges and to Jenkins Island.

17. Provide 14' minimum width non-motorized lane on the bridge with multiple viewing areas and protection/screening of vehicles

Preliminary Response: Agreement on the 12' shared-use pathway along the southern side of the bridge with 2 bulb-outs, one over each creek. Each bulb is out to be approximately 50' long. The bulb out elements are to be funded with local money as they are considered non-essential for SIB funding

Additional Response: The final configuration of the bulb-outs will be determined during the bridge design phase but are currently estimated to be 20'x50' with an additional cost of \$125k to \$150k per bulb out. However, the cost estimate does not include the additional cost for protection/screening. The County supports the concept of the viewing areas/screening if additional local funds can be identified early in the design process by the Town but the County does not have the extra funds to support the addition.

18. Attention to bridge design/details as viewed from afar and on-deck (parapet, railings, structural forms}

Preliminary Response: Agreement on this item with continued coordination through project design. Attention to be focused on the above deck treatment of the bridge.

Additional Response: This has potential schedule implications, but a decision would need to be made early in the design development to ensure timely completion of the bridge design. The County does not have extra funds but supports additional aesthetic details but is good with the concept if additional local funds or grants can be identified and made available.

19. Consolidate Jenkins Island access to one location at C. Heinrichs Circle/Windmill Harbor Entrance

Preliminary Response: Agreement to consolidate all turning movements on Jenkins Island to this single intersection has already been implemented as part of the refinements after the public hearing.

Additional Response: No additional response.

20. Provide traditional turn lanes and intuitive intersection configurations throughout Stoney

21. Eliminate confusing SCDOT U-turns

22. Eliminate left turns and traffic introduction onto Old Wild Horse Road

Preliminary Response: This response applies to 20-22. There is an internal agreement to provide lefts at the Stoney intersections and not to proceed with the U-turn at the Old Wild horse Road intersection. SCOOT, Beaufort County, and the Town of Hilton Head agree to evaluate options to understand the performance and impacts resulting from the preferred alternative and the local alternatives. A balance of performance, impact of land disruption, and local desires and input will drive the final request to FHWA.

Additional Response: Additional survey work and engineering design was required to address this request. A traffic technical memo was created for the section of US 278 between Squire Pope Road and Spanish Wells Road to evaluate additional intersection configurations (Appendix 2). Two additional intersections were evaluated that eliminated the signal and U-turns at Old Wild Horse Road and reintroduced the left turns at Squire Pope Road & Spanish Wells Road. Both options introduced dual left-hand turn lanes from eastbound US 278 onto northbound Squire Pope Road, dual lefts from Spanish Wells Road northbound onto US 278 westbound, and the combination of the Squire Pope Road southbound through movement and left-turn movement to protect the tree canopy on Squire Pope Road. Option 1 includes dual rights from SB Squire Pope Road onto WB US 278 operating under a stop condition while Option 2 includes one free flow right from SB Squire Pope Road to WB US 278 with an acceleration lane on 278. While the traffic performance of each of the options causes decreased level of service at the intersections, additional travel time and delays in the peak direction, and additional delays on the side streets, the performance does meet the minimum standard of a level of service D. There is minimal discernment obtained between the performance of Option 1 and Option 2. The next step was to compare the options to original TCP impacted areas of 4.77 acres as shown in Appendix 3. Each of the alternatives, including the preferred alternative through refinements, shows a reduction in the TCP impacts. Once all factors are considered including TCP impacts, local governmental input, and public comments from the Public Hearing Option 1 balances the need for traffic performance for the mainline and side roads, and the TCP impacts throughout Stoney. Option 1 reduces the frontage impacts along US 278 within Stoney from the causeway to Squire Pope Road. The selection of Option 1 will require the trail to meander within the Town of Hilton Tract on the northeast corner of Squire Pope Road and US 278 to protect the tree canopy along Squire Pope Road as requested by the State Historical Preservation Office (SHPO).

23. Create a new park south of Parkway in Stoney to authentically showcase Gullah Geechee culture/heritage

24. Consider a new Visitor Center as part of this park that intentionally showcases this heritage while introducing visitors to the Island's offerings

Preliminary Response: This applies to 23 and 24. This must take place (at least initially) on Town/County-owned property within Stoney. NO additional property impacts take or displacements should be represented as part of this element. TCP elements identified in the EA should be integrated and enhanced at this location.

Additional Response: The new park and pavilion are part of the environmental commitments for the project. The location of the improvements and details will need to be coordinated with the Stoney Community and the local entities. Should the Town desire to design and construct a visitor center, it could be constructed separately but concurrent with the project. The improvements outlined in the EA document as commitments for the Stoney Community are funded however any additional design elements or expansion would need to be funded locally and not utilize SCDOT or SIB funding.

25. Create a Stoney-authored vision plan for the next generation of that neighborhood

Preliminary Response: Agreement that this should be a locally handled effort.

Additional Res onse: As part of the environmental commitments, the County will develop and host an online, interactive map of the history of the Stoney community to share important historical information about the community.

26. Create and professional staff a Development Corporation as a vehicle for Stoney Advancement.

Preliminary Response: Agreement that this should be a locally handled effort.

Additional Response: The County supports the advancement of citizens within the Stoney Community and other Gullah communities throughout the county and is open to further discussions to determine the most appropriate vehicle to support this mission.

Responses to MKSK Town Recommendations

Commented [DM1]: Collin: do you want to keep this here?

The preliminary responses are based on the meeting held between the Beaufort County (County Administrator Eric Greenway & Assistant County Administrator Jared Fralix), SCDOT (Secretary Christy Hall, Deputy Secretary Leland Colvin, & Program Manager Craig Winn), and the Town of Hilton Head Island (Town Manager Marc Orlando, Mayor John Mccann, and Senior Advisor to the Town Manager Shawn Colin) on October 14, 2021, at the Beaufort County Administration Building. Additional responses are based on further environmental NEPA evaluations, traffic evaluations & engineering design performed since the October 14, 2021 meeting.

Corridor Wide

1. Reduce lane widths to 11' to calm traffic & reduce property impacts

Preliminary Response: Agreement on 12' lanes on the bridge and Jenkins Island but a 12' outside lane and a pair of 11' inside lanes as well as accessory lanes will be pursued through the Stoney Community from the Causeway to Spanish Wells Road.

Additional Response: During the design process a design exception and appropriate approvals for the two 11' inside lanes within the Stoney Community will need to be pursued.

2. Eliminate raised curbs in medians wherever possible, encourage existing vegetation and natural drainage in these areas

Preliminary Response: Agreement on elimination of raised curbs on the interior portion of Jenkins Island where appropriate with the understanding this will increase the clear zone needed in the median. Raised curb and gutter will be installed on the exterior edge of the roadway to reduce ROW requirements and handle the drainage needs.

Additional Response: Additional investigation and review of safety and drainage needs within the area will be required as project development continues. In project areas with a proposed 15' raised median, curbing will be provided on both the inside and outside of the roadway.

3. Vary median widths and meander roadway alignments where possible for traffic calming and aesthetics

Preliminary Response: Agreement on varying median through Jenkins Island, holding eastbound lanes in the existing alignment and moving westbound travel lanes North on Jenkins Island between Crosstree Drive and the causeway. The costs are to be estimated and if project overrun will need to be funded locally (not SCDOT or SIB funding).

Additional Response: The meandering of the roadway is estimated to increase project cost by approximately \$1.5M and was designed to avoid all critical area and freshwater wetlands. Additionally, the meandering of the roadway would not be permitted to result in wetland impacts greater than the Recommended Preferred Alternative 4A, as presented at the Public Hearing. Appendix 1 shows the proposed layout of the meandering on Jenkins Island that avoids critical area

wetlands and freshwater wetlands. The additional cost does not include any costs for the additional Town-owned ROW required to meander the roadway and the ROW is assumed to be donated. The County does not have extra funds for an additional cost, and additional local funds would need to be identified early in the design process by the Town.

4. Take advantage of Town-owned property for sake of Parkway improvements

Preliminary Response: Agreement on this item and was part of the SIB application.

Additional Response: Project is taking advantage of Town-owned property through Jenkins Island with westbound lanes alignment. Other uses of Town-owned property will be considered during design if needed to facilitate project needs.

5. Utilize ITS smart signal technology throughout

Preliminary Response: Agreement on this item. It is already part of the current project scope.

Additional Response: Please be advised that signals will continue to be maintained locally, by either the County or Town, as currently prescribed in each of our Signal Maintenance Agreements (SMA) with SCOOT

6. Reduce curb cuts and provide for alternative/safer property access throughout

Preliminary Response: Agreement on this item. Change in access drives within Stoney as proposed by MKSK is separate from the project.

Additional Response: Reduction in curb cuts is a priority for safety and access management. Before reducing curb cuts, it will need to be verified that the improvements do not cause additional impacts within the TCP and are agreeable by all property owners.

7. Provide trails on both sides of Parkway where possible with sufficient separation from the road and instead of sidewalks

Preliminary Response: No trail to be installed on the southern side of William Hilton Parkway. The existing sidewalk on the southern side is to be removed except to connect Windmill Harbor to the shared use path underpass west of the Windmill Harbor entrance.

Additional Response: No additional comments.

8. Create a comprehensive system of safe, comfortable, and attractive shared use paths for cyclists and pedestrians

Preliminary Response: Agreement on a trail on the northern side of US 278 only, with separation from the roadway. The trail will not be located in the marsh area and must tighten up alignment through the causeway section connecting Hilton Head and Jenkins Island. The trail is okay to move north for more separation from Parkway through Jenkins Island.

Additional Response: The meandering of the trail through Jenkins Island must avoid the wetlands and environmental features. The corridor will also be evaluated for other opportunities to utilize town-

owned land to meander the shared use path away from the roadway and to protect tree canopies when practical. Additional expenses to meander the trail will need to be covered by local funds (Not SCOOT or SIB funding)

9. Open/encourage views to the water wherever possible, as part of the Island's "signature"

Preliminary Response: Agreement that this is a local element with selective treatment rather than any clearing and grubbing along the water edge.

Additional Response: This will not be included as part of the project as it has the potential to increase environmental impacts outside of the proposed construction limits.

10. Ensure integration of unique, Hilton Head-specific signage, landscape schemes, public art program, architectural vocabulary, iconic features, and accent lighting that distinguish this parkway from all others

Preliminary Response: Agreement that this element should be Town driven through its CIP Program.

Additional Response: The EA document includes signage within the Stoney Community as part of the environmental commitments. This is to include two signs, banner signage on SUP lighting, and landscaping. The final details of each of these features will be coordinated with the Stoney Community and local governments. (Eligible for project funding within the Stoney Community)

11. Reduce design & posted speeds throughout the corridor.

Preliminary Response: The entire project will include a 45mph design speed and consideration given for 40mph posted speed for the William Hilton Parkway from the causeway connecting Hilton Head to Jenkins Island to Sea Pines Circle (which includes the Stoney segment)

Additional Response: The posted speed will need to be discussed with the SCOOT District Traffic Engineer and a formal request will need to be submitted by the Town requesting a Speed Study through the District office for the areas of concern between Stoney and Sea Pines Circle. The project team will assist in any communication and coordination with the SCOOT District office.

12. Evaluate the island-wide transportation system.

Preliminary Response: Agreement this is an effort that will be handled locally

Additional Response: No additional comments.

Zone specific recommendations

13. Encourage/support Moss Creek area improvements (commercial redevelopment, access/roadway improvements, trail connections)

Preliminary Response: Agreement for long-term but not included in this project scope and is not eligible for State Infrastructure Bank Funding.

Additional Response: County to support private commercial redevelopment in Moss Creek area. Any driveways and curb-cuts within project limits will be improved as part of the project. The trail along US 278 will connect to the trails along Bluffton Parkway via pedestrian improvements along Buckingham Plantation Drive.

14. Establish "Gateway Experience" threshold at the west end of Mackay Creek bridges (landscape, island "icon", art, lighting)

Preliminary Response: Okay through coordination of County & Town

Additional Response: Not eligible for SCOOT or SIB Funding

15. Reduce bridge mass with two separate bridges and a Shared-Use path on side of the eastbound bridge

Preliminary Response: SCDOT is neutral on this item. The county administrator does not think benefits will justify additional costs. SCDOT states it's likely a 10-15% increase in the cost of the bridge component resulting in a \$30M to \$40M dollar increase. These additional costs are to be funded with local funds, not SCDOT or SIB. This item is to be evaluated by KCI (County) and HDR (Town) to determine the differential in costs between 1, six-lane bridge versus 2, 3 lane bridges. Additional impacts to the environment and Pinckney Island to be considered.

Additional Response: The construction of two separate bridge structures will increase the actual bridge width and increase the impacts to Pinckney Island due to the need for a separation distance between the two structures. The dual bridge option increases the estimated project cost by \$27.3 million. Additionally, two separate bridge structures will significantly increase the construction time potentially extending the completion date and jeopardizing SIB funding. The County does not support this request.

16. Reduce bridge lane width to 11', verify the need for two breakdown lanes per bridge

Preliminary Response: The bridge will have 12' lanes and no reduction of shoulder/breakdown widths. Each direction to include 2-10' shoulders as agreed to by all parties.

Additional Response: The 12' lanes and 10' shoulders are FHWA controlling criteria and provide a safety benefit to the project. These criteria are based on the roadway classification. Additionally, the shoulders provide improved access for Emergency Response on the bridges and to Jenkins Island.

17. Provide 14' minimum width non-motorized lane on the bridge with multiple viewing areas and protection/screening of vehicles

Preliminary Response: Agreement on the 12' shared-use pathway along the southern side of the bridge with 2 bulb-outs, one over each creek. Each bulb is out to be approximately 50' long. The bulb out elements are to be funded with local money as they are considered non-essential for SIB funding

Additional Response: The final configuration of the bulb-outs will be determined during the bridge design phase but are currently estimated to be 20'x50' with an additional cost of \$125k to \$150k per bulb out. However, the cost estimate does not include the additional cost for protection/screening. The County supports the concept of the viewing areas/screening if additional local funds can be identified early in the design process by the Town but the County does not have the extra funds to support the addition.

18. Attention to bridge design/details as viewed from afar and on-deck (parapet, railings, structural forms}

Preliminary Response: Agreement on this item with continued coordination through project design. Attention to be focused on the above deck treatment of the bridge.

Additional Response: This has potential schedule implications but a decision would need to be made early in the design development to ensure timely completion of the bridge design. The County does not have extra funds but supports additional aesthetic details but is good with the concept if additional local funds or grants can be identified and made available.

19. Consolidate Jenkins Island access to one location at C. Heinrichs Circle/Windmill Harbor Entrance

Preliminary Response: Agreement to consolidate all turning movements on Jenkins Island to this single intersection has already been implemented as part of the refinements after the public hearing.

Additional Response: No additional response.

- 20. Provide traditional turn lanes and intuitive intersection configurations throughout Stoney**
- 21. Eliminate confusing SCDOT U-turns**
- 22. Eliminate left turns and traffic introduction onto Old Wild Horse Road**

Preliminary Response: This response applies to 20-22. There is an internal agreement to provide lefts at the Stoney intersections and not to proceed with the U-turn at the Old Wild horse Road intersection. SCOOT, Beaufort County, and the Town of Hilton Head agree to evaluate options to understand the performance and impacts resulting from the preferred alternative and the local alternatives. A balance of performance, impact of land disruption, and local desires and input will drive the final request to FHWA.

Additional Response: Additional survey work and engineering design was required to address this request. A traffic technical memo was created for the section of US 278 between Squire Pope Road and Spanish Wells Road to evaluate additional intersection configurations (Appendix 2). Two additional intersections were evaluated that eliminated the signal and U-turns at Old Wild Horse Road and reintroduced the left turns at Squire Pope Road & Spanish Wells Road. Both options introduced dual left-hand turn lanes from eastbound US 278 onto northbound Squire Pope Road, dual lefts from Spanish Wells Road northbound onto US 278 westbound, and the combination of the Squire Pope Road southbound through movement and left-turn movement to protect the tree canopy on Squire Pope Road. Option 1 includes dual rights from SB Squire Pope Road onto WB US 278 operating under a stop condition while Option 2 includes one free flow right from SB Squire Pope Road to WB US 278 with an acceleration

lane on 278. While the traffic performance of each of the options causes decreased level of service at the intersections, additional travel time and delays in the peak direction, and additional delays on the side streets, the performance does meet the minimum standard of a level of service D. There is minimal discernment obtained between the performance of Option 1 and Option 2. The next step was to compare the options to original TCP impacted areas of 4.77 acres as shown in Appendix 3. Each of the alternatives, including the preferred alternative through refinements, shows a reduction in the TCP impacts. Once all factors are considered including TCP impacts, local governmental input, and public comments from the Public Hearing Option 1 balances the need for traffic performance for the mainline and side roads, and the TCP impacts throughout Stoney. Option 1 reduces the frontage impacts along US 278 within Stoney from the causeway to Squire Pope Road. The selection of Option 1 will require the trail to meander within the Town of Hilton Tract on the northeast corner of Squire Pope Road and US 278 to protect the tree canopy along Squire Pope Road as requested by the State Historical Preservation Office (SHPO).

23. ***Create a new park south of Parkway in Stoney to authentically showcase Gullah Geechee culture/heritage***

24. ***Consider a new Visitor Center as part of this park that intentionally showcases this heritage while introducing visitors to the Island's offerings***

Preliminary Response: This applies to 23 and 24. This must take place (at least initially) on Town/County-owned property within Stoney. NO additional property impacts take or displacements should be represented as part of this element. TCP elements identified in the EA should be integrated and enhanced at this location.

Additional Response: The new park and pavilion are part of the environmental commitments for the project. The location of the improvements and details will need to be coordinated with the Stoney Community and the local entities. Should the Town desire to design and construct a visitor center, it could be constructed separately but concurrent with the project. The improvements outlined in the EA document as commitments for the Stoney Community are funded however any additional design elements or expansion would need to be funded locally and not utilize SCDOT or SIB funding.

25. ***Create a Stoney-authored vision plan for the next generation of that neighborhood***

Preliminary Response: Agreement that this should be a locally handled effort.

Additional Res onse: As part of the environmental commitments, the County will develop and host an online, interactive map of the history of the Stoney community to share important historical information about the community.

26. ***Create and professional staff a Development Corporation as a vehicle for Stoney Advancement.***

Preliminary Response: Agreement that this should be a locally handled effort.

Additional Response: The County supports the advancement of citizens within the Stoney Community and other Gullah communities throughout the county and is open to further discussions to determine the most appropriate vehicle to support this mission.

FROM: Mac Deford, *General Counsel*
CC: Marc Orlando, *Town Manager*, Josh Gruber, *Deputy Town Manager*
DATE: September 27, 2022
SUBJECT: Town Code Section 2-11-40 Entitled *Town Attorney Municipal Code Amendment*

SUMMARY & RECOMMENDATION:

The Town Council appoints the Town Attorney pursuant to Section 2-11-40 of the Town Code. The appointment is generally ratified under a written contract which contains the terms and conditions of the appointment, including the term of the contract. During the September 20, 2022, Town Council meeting, Town Council expressed a desire to amend Section 2-11-40 of the Town Code with a provision mandating that the Town Attorney's contract term expire on June 30 of the final year of the contract term. The reason for this amendment is to ensure that the Town Attorney's term coincides with the Town's fiscal year.

If adopted, the attached amendment of Section 2-11-40(a) will mandate that the Town Attorney's contract term expire at the end of the Town's fiscal year, June 30.
