#### **MEMORANDUM**

RE: FY 2021 Financial Statements – Through September 2020 (3rd Period)

#### **General Overview**

The initial months of each fiscal year are traditionally low on the revenue side while expenses, which are predominantly personnel related, are incurred evenly throughout the fiscal year. Therefore, reporting a deficit is the norm during the first quarter which runs from July through September, and is expected.

**COVID-19** disruption of normal economic activity really started to show in the second half of March. The collection of revenues related to taxes and fees reflecting the lower economic activity levels started to show in the April financial statements. However, as detailed below, Real Estate-related and Tourism-driven YTD revenues for first quarter FY21 were up a combined \$1,814,379 compared to first quarter FY20.

**Real estate-related revenues**, namely Real Estate Transfer Fees and Permits are 66% higher than last fiscal year. Individually, the Real Estate Transfer Fee amount of \$1,731,460 is up 83% from last YTD while Permit Revenues are 15% higher than last year. The Real Estate Transfer Fee and Permit revenues are apples to apples comparisons and are up that much this year.

**Tourism-driven revenue** results which is comprised of ATAX/Beach and Hospitality taxes are on a combined basis 69% higher than last fiscal year. The local ATAX and Beach Fees are based on accommodations while the HTAX is a function of prepared meals and beverage sales. Some of the Local ATAX, HTAX, and Beach Fees collected in FY21 related to FY20 – giving FY21 a temporary boost. We do not expect these increases in the future.

#### **General Fund Summary**

The Town receives most of its property taxes (the largest revenue source) from December through February. The next largest General Fund revenue sources is Business License revenues which the Town primarily receives in March through June.

Through September, the Town's General Fund revenues and transfers in total \$5,359,217 or 12% of budget, which compares to \$3,309,358 or 8% of budget for last year. This is an increase of \$2,049,859 compared to the prior year. Approximately \$1,378,000 of the increase is due to a timing change in the distribution of State business license revenues and approximately \$321,000 is due to an increase in local accommodations taxes. These will level out as the year progresses. The rest is related to a collection of other revenues that would have different timing than last year. There is no reason to change our expectations for our budget projections for the full year. At this early point in the year we hesitate to draw inferences regarding ongoing trends. However, we will continue to closely monitor the timing, amount, and our projections for revenues.

With 25% of the year lapsed at the end of September, expenditures-to-date are \$8,699,944 or 20% of budget. Current fiscal year expenditures are (\$660,151) or (7%) lower than last year. This demonstrates the efforts to reduce, delay or cut expenditures as we monitor revenues in the pandemic. Several detailed explanations for year-to-year changes are provided in the budget to actual statement or on the revenue analysis charts. Overall results are consistent with expectations for this time of year.

The fiscal year-to-date deficit in the General Fund is presented as a deficit of (\$3,340,727) compared to last year's deficit of (\$6,050,737) which is \$2,710,010 better than last year.

#### **Debt Service Fund**

Debt service payments are due at various times during the fiscal year. As of the end of September, \$4,432,020 or 22% of the current year's obligations, have come due and been paid.

### **Capital Projects Fund**

As you can see below, our capital projects continue to move forward. Since the funding was in place before the start of the year, as the projects advance, CIP fund balance declines.

Major Capital Projects/Expenditures that have occurred thus far this fiscal year are as follows:

\$ 1,093,181
\$ 228,276
\$ 92,783
\$ 78,689
\$

Summary balances for the Capital Project Fund are as follows:

	Actual
Revenues	257,378
Transfers In	1,332,351
Capital Outlays	(1,676,658)
Transfers Out	 _
Net Change in Fund Balance	\$ (86,929)

#### **Other Revenues**

The table below reflects the Town's revenue received for other governmental funds for this fiscal year in comparison to the same time last year. Explanations for material variances, are also included. As you can see, some are up and some are down – the diversity of revenue streams is exceptionally important in difficult economic times as we are nationally.

- A Addressed previously in this cover letter
- B Most of the property tax revenue is received during the December thru February time period.
- C Amount represents fees charged to customers by Palmetto Electric.
- D New source of revenue beginning during FY2017.

#### **Stormwater Utility Fund**

The Business Type Activity – Stormwater data are presented on the modified accrual basis of accounting. This basis reflects the very close relationship between revenues and expenditures. These balances will change as Town staff modifies the accounts to full accrual basis, the required presentation basis in the Town's *Comprehensive Annual Financial Report*.

The Stormwater revenue collected by the County is remitted to the Town mainly during the December through February time period. Expenditures are incurred throughout the fiscal year. The expenses this year to date include \$548,522 for Capital Outlays, \$122,178 for Debt Service, and \$496,051 for operations.

#### **Fund Balances**

As you will notice on page 6, the year-to-date net change in fund balances is a seasonal decrease of (\$6,756,550) for governmental funds and (\$1,103,613) for the Stormwater Utility Fund. These results are expected. These compare to last year's amounts of (\$16,650,973) for governmental funds and (\$490,412) for the Stormwater Fund.

The original TIF went through tax year 2014/fiscal year 2015 and included the school district participating at 75% for both operating and debt millage. The TIF has been extended for 10 years; however, the school district changed its participation to exclude operating millage. Therefore, TIF revenues will be less in fiscal years 2016 and forward. TIF revenues by design are expected to grow via redevelopment; \$50 million is the capped addition for the 10 years. Revenues for the early years of the 10 year extension are expected to be in the \$4 millions, but will need to exceed \$5 million in the latter years to average \$5 million/year or \$50 million in total.
