---

- The meeting was called to order at 10:02 AM.
- The group reviewed the latest draft of the goals, strategies and tactics with the focus being on connectivity between people rather than physical infrastructure. The infrastructure aspects of connectivity will be addressed by other work groups.
- Modifications will be made to the subsequent draft based on the comments and input from the group.
- The group agreed that this information is sufficient to hand off to staff for presentation to the Development Team on December 2<sup>nd</sup>, but would like to review the revised draft prior to determining if additional meetings are necessary.
- Each group will reconvene in February to review the draft chapter prior to it being provided to the Development Team.
- The meeting concluded at 11:00 AM.
